

Blaze/Vulcan Underquilt Set Up Guide

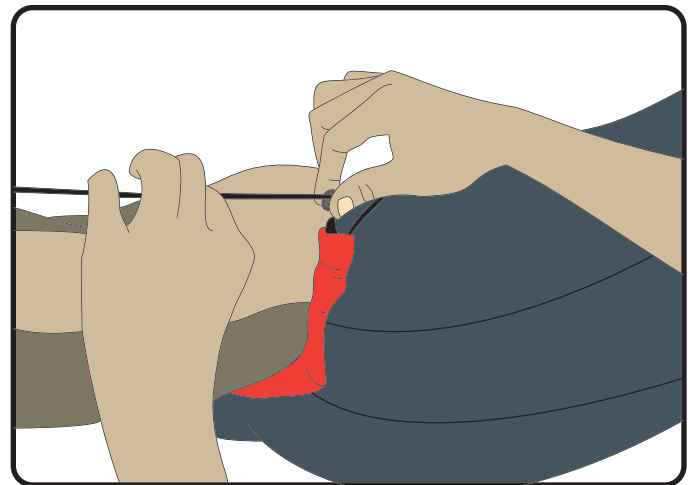

1. Hang your hammock to your desired tension and height. (For your safety, we recommend no more than 18" off the ground.)

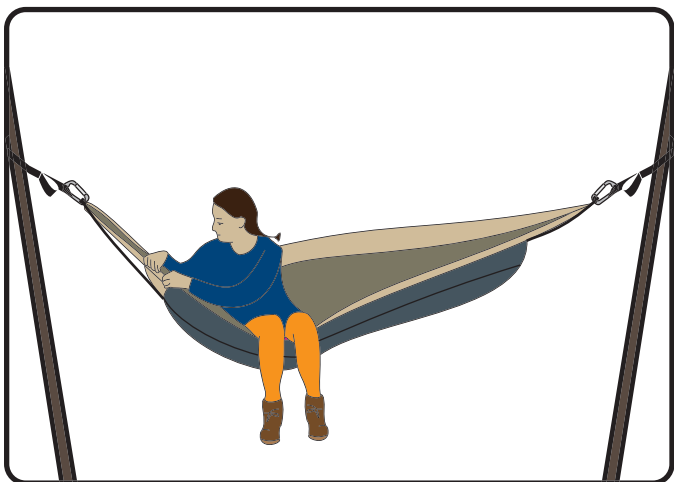

2. Clip the end bungees onto the hammock carabiner. Repeat on the other end.

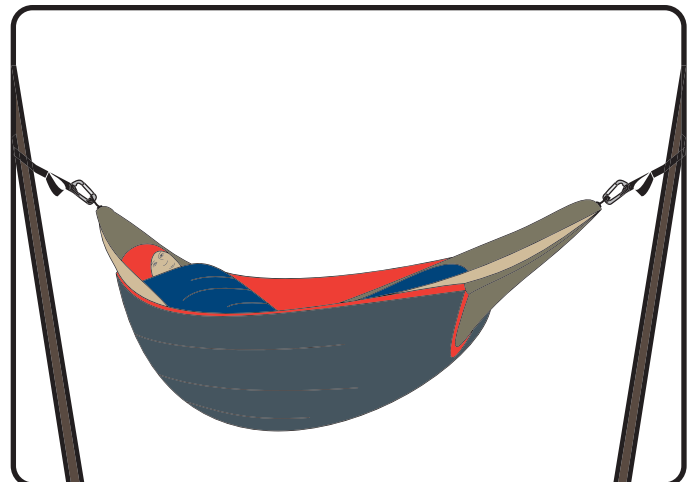

3. Place the hammock inside the quilt.

4. Adjust the cord locks (found on each end) to fit snugly around the hammock.

5. Sit in the hammock. Readjust cordlocks if necessary.

6. Enjoy a warm night's sleep!
